Forestry and Land Scotland

Sale of Timber

Tender of Standing and Roadside Logs

To be opened at FLS Head Office

on

4th September 2024 at 12.00 hours

<u>Sale Type</u>	<u>Quantity (approx.)</u>
Sawlogs at Roadside (m3ub)	24100
Sawlogs at Roadside (tonnes)	30450
Standing Timber (m3obs)	217993

Please note this catalogue is for information only and bids received using the tender form attached will be excluded from the sale.

All bids for this sale must be submitted through the E-sales system.

For information on registering as an E-sales user please visit [eSales System Guidance, Support & Help | Forestry and Land Scotland](#)

General Conditions of Sale

All timber on offer in this sale is covered by Chain of Custody Certificate No FSC: SA-FM/COC-007002 and PEFC: SA-PEFC-FM/COC-007002. These certificates were issued on 12 November 2019 under the QUALIFOR Programme by SGS Forestry.

1. The sale of each Lot is subject to:
 - Standing Timber – Standard Short-Term Contract for the sale of Standing Trees (Published March 2024)
 - Sawlogs at Roadside – Standard Short-Term Contract for the sale of Sawlogs (Published March 2023)
2. **Prospective Purchasers are advised to read the terms and conditions of sale prior to bidding.** Any bid accepted by Forestry and Land Scotland (FLS) shall be subject to the terms and conditions laid out in the relevant standard short-term contract and schedules Parts 1 – IV
3. There will be a contractual obligation on the part of the successful purchaser to provide FLS with key information within a timebound period as specified in the short-term standard contracts. Prospective bidders should be aware that failure to provide said information to FLS within the timebound period may lead to termination of contract and resale by FLS.
4. Arrangements to inspect the timber should be made directly with the FLS Contract Manager named in Part 1 of the Schedule. An address list for Regional Operations Managers and Assistant Operations Managers, along with key contacts in National Office is on the last page of this catalogue.
5. Site boundaries will be clearly marked in a common manner. External boundary trees will be marked with white tape or marking, i.e. the trees to be left standing after harvesting operation. Purchasers will be deemed to have acquainted themselves with arrangements for access and constraints, if any, in respect of each Lot, details of which are specified in the site-specific conditions and sale maps.
6. Prospective purchasers are advised to consult a copy of the map of timber haulage (preferred) routes on public roads before bidding for the lots where these apply. Copies of all the maps together with a statement of preferred routes are held by the Regional Managers also all local authority Divisional Road Surveyors within the Region.
7. No Lot carries entitlement to continuity of supplies of timber outside the terms and conditions of the Agreement.

8. All bids/offers shall be exclusive of Value Added Tax, which shall be added to the purchaser price of each Lot at the appropriate rate.
9. Conditional Bids - FLS shall only consider conditional bids for Roadside lots if they meet the terms laid out in Particulars of Sale, Logs at Roadside, paragraphs 10 – 13.

Particulars of Sale

Standing Timber

1. Lots are either offered for lump sum bids or bids per tonne as clearly described on the top of each page in this catalogue.
2. Lots offered for price per tonne bids – Estimated tonnage and derived volume have been subject to the tariff method described in the sale catalogue, or as otherwise stated production forecast data.
3. Lots offered for lump sum bids - All volume estimates have been derived from a full Tariff unless otherwise stated. Tariff sheets may be Requested from the FLS Contract Manager.
4. The Purchaser shall be deemed to have formed their own estimate of sale quantity / volume of Trees on the Sale Area and shall also be deemed to have satisfied themselves as to the occurrence of butt rot and stain and no subsequent allowance or reduction will be made.
5. **The “indicative” start and end dates are as indicated against each Lot in the catalogue and must be agreed at the Pre-Commencement meeting (PCM).** The indicative contract period has been based on the following FLS Standard Harvesting Output Framework: -
 - Clearfell to include Roadside Uplift – 500m³obs per week (1 Harvester + 4 week contingency)
 - Thinning to include Roadside Uplift – 200m³obs per week (1 Harvester + 4 week contingency)
 - Skyline / Cablecrane Extraction to include Roadside Uplift – 250m³obs per week + 4 week contingency

Sale Type	Volume Category	Maximum Period
Standing Clearfell	<6km ³ obs	Up to 16 Weeks (112 Days)
Standing Thinning	<6km ³ obs	Up to 34 Weeks (238 Days)
Skyline / Cablecrane	<6km ³ obs	Up to 28 Weeks (196 Days)
Standing CF	6km ³ obs – 10km ³ obs	Up to 24 Weeks (168 Days)
Skyline / Cablecrane	6km ³ obs – 10km ³ obs	Up to 44 Weeks (308 Days)
Standing CF	10km ³ obs– 30km ³ obs	Up to 64 Weeks (448 Days)
Skyline / Cablecrane	10km ³ obs– 30km ³ obs	Up to 124 Weeks (868)

		Days)
--	--	-------

6. Where the contract period is shorter than the expected period derived from the FLS Standard Harvesting Output Framework, FLS will provide the reason(s) for such in the site-specific conditions. In such circumstances prospective purchasers should consider the level of harvesting capacity and uplift patterns that would be required to complete the contract within the shortened timebound period.
7. Where the contract period is longer than the expected period derived from the FLS Standard Harvesting Output Framework, and for reasons attributed to site specific timing constraints, FLS will provide an indicative period when work and / or haulage access is likely to be restricted.
8. Prior to the “indicative” start date, the Purchaser must contact the FLS Contract Manager to agree the PCM. **At least 7 days before any PCM can take place the Purchaser must provide FLS with key information pertaining to clause 5.5, 12.1 and 12.4 of the standard contract.**
9. The Start Date may, at the request of the Purchaser and with the agreement of Forestry and Land Scotland at the PCM, be deferred for a maximum of two calendar months. Any such agreement will form an addendum to the contract

Logs at Roadside

10. Lots are either offered for a price per cubic metre underbark or for a price per tonne as clearly described on the top of each page in this catalogue.
11. Where lots are offered for a price per cubic metre underbark - the volume of the timber will be calculated from the weight of loads supplied, converted to volume using volume/weight fixed conversion factors where such agreements currently exist between Forestry and Land Scotland and relevant parties. Successful purchasers that do not have an agreement for fixed conversion factors with Forestry and Land Scotland shall be required to agree a fixed conversion factor(s) based on the national data set within the relevant supplying location.
12. Where logs are already cut to roadside, this has been stated in the sale catalogue and a breakdown of log specification given. Where logs are still to be felled, FLS has stated the anticipated date for extraction to roadside.
13. The average DBH of the standing trees from which the logs will be produced is an estimate only, provided for the guidance of prospective purchasers - it is not guaranteed.
14. Forestry and Land Scotland (FLS) carefully consider the log specification, including the product range, for sawlogs and roundwood and advertise them for sale at roadside on

this basis. In the event of a conditional bid being placed, FLS shall only consider a request to change that specification if it falls within the Minimum Top Diameter, Minimum and Maximum lengths and Average DBH as advertised in the sale catalogue. Any condition outwith this range shall be excluded.

15. Conditional bids that do not influence the advertised specification and therefore the value of the sale lot shall of course be considered wherever possible.

16. In the event of a conditional bid being accepted, FLS reserve the right to vary the contract volume if the breakout is adversely affected.

17. Conditional Bids must be recorded on a Lot by Lot Basis. FLS shall not accept conditional bids condensed into 1 single Lot and covering multiple lots. FLS reserve the right to exclude any conditional bids that are not correctly submitted on a Lot-by-Lot basis.

18. The indicative start and end dates are as indicated against each Lot in the catalogue and must be agreed with the FLS contract Manager in writing as part of the pre contract start-up meeting or discussion. The indicative contract period has been based on expected uplift patterns:

- Roadside Uplift – 10 Loads per week (250 Tonnes) + 4-week contingency

Sale Type	Volume Category	Maximum Period
DP Roadside	<2km ³ ub	Up to 12 Weeks (84 Days)
DP Roadside	2km ³ ub – 4km ³ ub	Up to 20 Weeks (140 Days)
DP Roadside	4km ³ ub – 6km ³ ub	Up to 28 Weeks (196 Days)

19. Where the contract period is shorter than the expected period derived from expected uplift patterns, FLS will provide the reason(s) for such in the sale catalogue. Prospective purchasers should consider the required level of uplift to complete the contract within the shortened timebound period.

20. Where the contract period is longer than the period derived from expected uplift patterns, and for reasons attributed to timing constraints, FLS will provide an indicative period when haulage access is likely to be restricted.

19. **14 Days prior to the “indicative” start date, the FLS contract Manager will contact the Purchaser** to exchange key information pertaining to clause 3.1, 3.5 and 3.6 of the standard contract.

20. The Start Date may, at the request of the Purchaser and with the agreement of Forestry and Land Scotland as part of the pre contract start-up meeting or discussion,

be deferred for a maximum of two calendar months. Any such agreement will form an addendum to the contract

Species Codes and Abbreviations

SP	Scots Pine
